---

**DESCRIPTION** NKP Dejan Pirnat s.p. is a young and ambitious company specialised in supplying steel structures, welded and mechanical products. We are focused on providing the highest quality and a wide choice of services, thus continuously encouraging the development of the entire business system. Our strengths are reliability, accuracy, flexibility and quality. An experienced and specialised team of experts ensures that our services are provided with reliability and precision and with short delivery times. To ensure the highest quality of your product, through the whole process of making, monitoring and controlling the implementation of the project is carried out and you are regularly informed thereabout. Development and design In close cooperation with you, we help you create a quality product and/or produce the complete technical documentation necessary for the production of your product, followed by producing it.

## **Development and design**

In close cooperation with you, we help you create a quality product and/or produce the complete technical documentation necessary for the production of your product, followed by producing it.

## **Cutting and preparation of material**

Cutting with automatic band saw: up to Ø 400  
Plasma and flame cutting: up to 6000x2500mm  
Laser cutting: up to 6000x2000mm  
Cutting with hydraulic scissors  
Water jet cutting  
Bending and wrapping  
Hydraulic press: 320 tons

## **Composition and welding**

Most of the products offered are welded, to which we give great attention. All welders are subject to A testing. During

welding we perform inter-phase and final control by means of NDT and guarantee a high quality with an International Welding Engineer (IWE). We offer the following welding types:

According to the MIG/MAG procedure

According to the TIG procedure

Manual arc welding

Welding of all structural steels

Welding of fine grain steels

Welding of stainless steels

Welding of steel combinations

### **Mechanical treatment**

We offer machining of small and large products. These can be individual pieces or serial production. Contact us for a list of machines.

Drilling

Milling: classical and CNC

Turning: classical and CNC

Grinding: classical

The maximum machine load is 50 tons.

### **Other services**

Thermal treatment,

Zinc coating,

Electroplating protection,

Sandblasting,

Surface protection,

Dusty painting

Transport

**ORGANIZATION TYPE** Company
